

Sentinel™ TS-EFI-10 EFI Test Set

PRODUCT BRIEF

KEY FUNCTIONS

- Battery Powered
- 10A Injection Current
- 200ms Injection Timer

FEATURES

- 10A Nominal Injection Current
- 200ms Injection Timer
- Higher Currents Created Using Multiple Turns
- Inherently Overload Proof
- Safe Output Voltage (<1V) Under All Conditions
- Battery Powered Using Internal Rechargeable SLA Battery
- Extremely Lightweight (<1kg)
- Extremely Compact (Single Hand Operation)
- Current Output LED Indication And Current Healthy Buzzer
- Open-Circuit LED Indication
- Low Battery LED Indication
- External Battery Charger Included
- Convenient Carry Bag Included
- Rugged And Reliable Solid State Electronics
- ISO9001 Based Quality Assurance
- Electromagnetic Compatibility
